D

Name disc: cut along the dashed line

How it works

1. Write one shared area in each outer slot of the wheel, and what done means in the list.
2. Cut out the name disc and write one name in each window.
3. Push a brass paper fastener through the center of the disc and the center of the wheel.
4. On turn day, rotate the disc one slot clockwise. The arrow points to the week.
5. After week 4, everyone has had every area once. Start again at 1.
